Summary

Full Stack Developer with nearly 4 years of experience in frontend and mobile app development. Skilled in building scalable web and React Native applications, deploying live products to the Play Store, and optimizing performance and user experience. Proficient in React, Next.js, TypeScript, GraphQL with experience across healthcare, fintech, and e-commerce domains

SKILLS

JavaScript, Typescript, Data Structure and Algorithms, ReactJS, NextJs, React Native, EXPO, GraphQL, Node.js, Express JS, Apollo server, MongoDB, MySQL, Microservice, Docker, AWS, S3, EC2, Cognito, Tailwind CSS, Chakra UI, GIT,Agile

EXPERIENCE

FORTUNESOFT IT INNOVATION PVT LTD | Bengaluru, IN-KA
SOFTWARE ENGINEER | 11/2023 – Present

- **Telemedicine Platform (Mobile & Web)** – Built a secure, HIPAA & GDPR-compliant telemedicine solution integrating Socket.IO, Zego Cloud (real-time video), and Gemini AI for AI-powered consultations. Improved patient–doctor connection time by 30%, handling 5,000+ active users with reduced appointment wait times.
- Architected cross-platform apps using React Native (Expo, API 35) with MobX + TanStack Query, and web apps using React, Vite, TypeScript, Redux Toolkit, Tailwind, Apollo Client. Enhanced query performance with GraphQL, reducing API latency by 50%.
- Implemented AWS S3 (pre-signed URL) for secure media uploads, ensuring 99.9% uptime and compliance with healthcare data standards.
- KWATAKI – FinTech Platform – Developed multilingual (Azure translation) support and integrated Firebase real-time notifications for instant loan updates. Designed reusable components and admin dashboards
- **Alpha-Acoustic** – IoT Music Controller – Engineered a real-time IoT-based music synchronization system with low-latency data streaming, enabling cross-device control and enhanced acoustic experiences.
- **HomeNurseForU** (MEDORA) – Delivered a home-care solution with end-to-end encryption, e-signatures, and advanced audit logging. Designed secure workflows with exportable compliance reports, ensuring full adherence to HIPAA & GDPR regulations.
- Established scalable CI/CD pipelines with Husky, ESLint, Prettier, and Vitest, enforcing code quality and reducing release cycle errors by 25%.

DX MIND | Bengaluru, IN-KA
SOFTWARE ENGINEER | 08/2023 – 11/2023

- Solely developed and deployed **the** BuyOnMaps mobile application **(similar to OLX) using** React Native**, delivering end-to-end features for product listing, buying, and selling.**
- **Published the app to the** Google Play Store**, ensuring production readiness and seamless user experience.**
- **Built a** Next.js-based admin panel **for product management, analytics, and feature tracking, improving operational efficiency for stakeholders.**

SKILL-LYNC | Bengaluru, IN-KA
FULL STACK DEVELOPER | 09/2022 – 08/2023

- **Mentored** 100+ students **in web development,** with 90% reporting improved coding proficiency**.**
- Conducted a **live webinar for 200+ students**, demonstrating real-time project workflows and receiving **95% positive feedback**
- **Improved** frontend performance of the E-Tech platform**, achieving faster load times and smoother UI experiences.**
- **Designed and implemented** secure user/admin authentication flows**, integrating seamlessly with APIs and CRM systems.**

FREELANCER | 07/2021 – 08/2022
FullStack Developer

- Refined the front-end of **Take My Tickets** a ticketing platform similar to Paytm Insider and BookMyShow, using React.js, ensuring a mobile-friendly design and integrating a ticket scanner functionality.
- Led the back-end API development for **Travel Map** implementing crucial APIs and managing S3 bucket file storage for secure and efficient data handling.

EDUCATION

BIJU PATNAIK UNIVERSITY OF TECHNOLOGY | ODISHA
B. TECH | 12/2020
